

Lineman Lasher

Series 61400

The **Lineman™** Lasher is the pull type cable lasher for tough jobs, especially the ones that always seem to come up at night and in dusty, wet or icy conditions. Use it to lash single or multiple cables up to 3" outside diameter and for single and double overlapping. It is perfect for lashing CATV and fiber optic cable.

You won't get snagged in trees and tight places with the **Lineman™** Lasher because of the smooth-faced, tapered cowl. The fast, easy transfer around poles for continuous lashing is important, especially if you are paid or are paying by the foot, the **Lineman™** Lasher cuts transfer time by as much as one-third. The wire quick-release trigger mounts below the handle for easy, one-hand engagement and release.

Versatility means less downtime and smooth operation. The tough, precision drive system needs no adjustment and delivers even lashing action. A key feature is that the Lineman requires no strand traction to drive rotation – this means you can now lash in any weather. The strand brake keeps wire tight prevents the lasher from sliding backward when forward motion is halted.

The **Lineman™** Lasher holds up to 1200 ft. per coil of 0.045" lashing wire without reloading, and works compatibly with up to 1/2" strands. A flat base ensures the lasher won't roll around in transit. An ergonomically engineered handle and controls add to total precision performance.

DCD Part #	Model	Max Strand	Max Lash	Wire Size	Spool size	Overall Dims	Weight
61400-000	Lineman	1/2"	3" dia	.045"	1200 ft / coil	19-1/2" x 12" x 12"	38 lb.

The DCD LINEMAN™ Lasher is the most versatile lasher on the market:

- ◆ Lashes single and multiple cables up to 3" O.D.
- ◆ Single and double lashes too,
- ◆ Lasher holds up to 1200 ft. per coil of .045" wire without reloading,
- ◆ Compatible with up to 1/2" strand or any size in between.

The DCD Lineman offers quick and easy transfer:

- ◆ Transfers around poles quickly and easily to continue lashing - that's important when you're paid by the foot,
- ◆ Cuts transfer time by as much as one third,
- ◆ Handle-mounted drive system clutch release trigger for easy, one-hand engagement and release of wire.

The DCD Lineman lashes in any weather:

- ◆ Doesn't require strand traction to drive the lasher, even in dusty, wet or icy conditions,
- ◆ Tough, precision drive system needs no adjustment,
- ◆ Strand brake maintains wire tension - lasher will not move backwards if forward motion is halted.

The DCD Lineman offers superior maneuverability and stability:

- ◆ Smooth-faced, tapered cowl minimizes snagging in trees and tight places,
- ◆ Ergonomically engineered handle and controls,
- ◆ Flat base - The Lineman won't roll around in transit or at the job site,
- ◆ Weighs just 38 lbs. Unloaded.
